

# Trace the Numbers

## NUMBER TRACING ACTIVITY

This worksheet is designed for tracing the number 7. It features ten rows of handwriting practice lines, each consisting of three horizontal lines (top, middle, and bottom). In each row, there are seven dashed number 7s for tracing. The number 7 is formed by a vertical line from the top line to the bottom line, and a horizontal line from the top line to the middle line, meeting at a right angle. The dashed lines are intended to be traced by a child, helping them learn the correct stroke order and shape of the number.
